Math. Reading. Confidence.

Welcome to Kumon, the world's largest after-school math and reading program. The Kumon Method has helped millions of children achieve more than they ever thought they could. We believe it can help your child, too. At Kumon, your child will build skills that lead to success inside and outside the classroom.

Success at Any Age and Any Level

At Kumon, our math and reading programs help children of all ages and levels become eager, independent self-learners. Unlike tutoring sessions, Kumon helps children learn how to learn on their own, and develops strong academic skills. Our students gain a sense of confidence that will help them in the classroom and beyond.

Kumon: The World's Largest After-School Learning Program

Math & Reading for Preschool through 12th Grade Students

Kumon began with a parent's love. Determined to help his eight-year-old son, a math teacher named Toru Kumon developed the materials and guiding principles of the Kumon Method.

Today, in 48 countries and regions on six continents, Kumon is helping millions of children succeed in the classroom and in life. It can help your child, too.

The Kumon Method empowers children to become self-learners, and helps them achieve more than they ever thought they could. Each time our students tackle and overcome a new challenge, their confidence grows. Kumon puts them on the path to becoming the confident, independent, self-reliant people all parents hope their children can be.

Build a career with the world's largest after-school math and reading academic enrichment program.
